## My own projects

**BF's Draughts** - modern draughts (checkers) for iOS - <http://www.bfdraughts.com/>

**Sublimerge** - the professional diff & merge tool for comparing files and directories right in the editor. Supports SVN, Git and Mercurial. Also provides additional and unique features. It is one of the most popular extensions for Sublime Text in the world - <http://www.sublimerge.com/>

**SublimeGerrit** - a full-featured client for Gerrit Code Review which allows to review changes introduced to the code by other developers - <http://www.github.com/borysf/SublimeGerrit/>

## Additional information
